

# Wandering and Fall Management Accessories

CarePoint floor, bed, and chair pads provide caregivers notification of residents who are at risk of falling or wandering. When a resident attempts to get up, pressure is removed or applied to the pad, which notifies the caregiver through a staff communication device. CarePoint pads can operate in silent mode or can be set to alarm locally with an audible signal.

CarePoint pads are wireless and easy to install. A secure bypass feature allows caregivers to temporarily disable the alarm during cleaning and attending to resident's needs. All CarePoint pads will automatically rearm once the resident is in place on the bed and chair pads or steps off the floor pad.

Features
Auto-Reset function automatically silences and resets the local alarm
No unsafe off switch – prevents resident tampering and caregivers do not need to remember to turn the monitor back on
Security key allows caregiver to attend to the resident without triggering an alarm
Pad disconnect notification – alerts caregiver if connection between the sensor pad and the monitor becomes disconnected
Battery operated with low battery notification
Adjustable volume or silent operation

Benefit
Helps to prevent falls and reduce injury
Silent operation won't disturb local residents
Easy to replace bed and chair pads when they expire or are moved to a new resident
Floor pads are durable and can be reused

# Specifications

## Chair Pads

<b>Color</b>	White
<b>Size</b>	10"x15"
<b>Pad Life</b>	90 days or 1 year

## Bed Pads

<b>Color</b>	White
<b>Size</b>	10"x30" or 20"x30"
<b>Pad Life</b>	90 days or 1 year

## Floor Pads

<b>Color</b>	Black or Grey
<b>Size</b>	24"x36", 1/4" thick
<b>Minimum Sensing Weight</b>	1-1/2 lbs. pressure

# Ordering Information

<b>Description</b>	<b>Part Number</b>
Alarm Kit for Monitoring Pads	1900991
Bed Sensor Pad 10"x30" - 1 year pad life	1900992
Bed Sensor Pad 10"x30" - 90 day pad life	1900993
